and the Common European Framework of Reference

# Introduction

## What is the Common European Framework of Reference?

The Council of Europe has developed the Common European Framework of Reference: Learning, Teaching, Assessment (or CEFR for short) with a view to promoting language teaching and learning within Europe.

The CEFR aims to provide a descriptive framework which encourages the development of language skills and intercultural awareness, learner autonomy and lifelong learning. It is of interest to course designers and coursebook writers as well as teachers, testers and teacher trainers.

The CEFR aims to promote a coherent approach to language learning with an emphasis on examining what we can do with a language. It also provides a framework which permits the comparison of the language levels of individuals in an impartial way.

## What are the aims of the CEFR?

It is important to be aware that the CEFR is designed as a set of common reference points and not as a set of points that should be covered systematically in study. One level or one set of reference points is not intended to refer to a year of study or a number of hours of study. It recognises that students have different aims and learn at different speeds.

The CEFR does not intend to prescribe a method of teaching, and recognises that there are a variety of methods relevant to different teaching contexts. However, it has a clear focus on the four skills and on developing an ability to communicate rather than acquire knowledge.

The CEFR also emphasises acquiring the skills to learn independently. It encourages autonomy in students and focuses on what they 'can do' and not on what they still need to learn. The CEFR intends to help define teachers' and learners' objectives. Teachers need to understand what they want to achieve on a course and students need clear objectives. The CEFR provides a set of descriptors and levels of competence that help focus such aims.

## How are the levels of the CEFR organised?

The CEFR has six levels which range from A1 (students with a starter level of English) to C2 (students who can use the language fluently and with precision). Below is an overview of these levels.

Proficient	C2	Mastery	Students can use the language precisely and fluently with near native competence.
	C1	Effective Operational Proficiency	Students are proficient in the language and have a wide range of vocabulary.
Independent	B2	Vantage	Students are able to express themselves in increasingly abstract ways.
	B1	Threshold	Students at this level can maintain conversations.
Basic	A2	Waystage	Students are able to get by in an increasing range of social situations.
	A1	Breakthrough	Students can express themselves in simple, basic language.

Note that the CEFR recognises intermediate levels between the global levels above – A2+, B2+, etc.

Each of the six levels of the CEFR is defined by a large set of descriptors – 'can do tick points' – which aim to define the expected language ability of an individual at each of the levels. For example, one of the descriptors under the heading *Conversation* at A1 level is: *can ask how people are and react to news*. At C2 level, a descriptor under the same heading is: *can use language flexibly and effectively for social purposes*.

## How does the CEFR correspond to Life?

The *Life* series has a communicative approach with an emphasis on learning language in real life contexts and on producing language in a broad range of speaking and writing situations. Consequently, its approach mirrors the functional descriptors of the CEFR as well as its broad emphasis on being able to communicate in a range of realistic situations.

*Life* Beginner covers the competences for A1. *Life* Elementary covers the competences for A2. *Life* Pre-intermediate covers the majority of competences for B1. *Life* Intermediate covers the competences for B1 and some for B2 (hence the B1+ labelling). *Life* Upper Intermediate covers the competences for B2. *Life* Advanced covers the competences for C1. There is, of course, built-in revision of the competences from the previous level before moving on to the new competence.

In this booklet, each exercise of the *Life* series is mapped against core descriptors at the relevant global level. So, *Life* Beginner is mapped against descriptors at the A1 Breakthrough level, *Life* Elementary at the A2 Waystage level, *Life* Pre-intermediate at the B1 Threshold level, *Life* Intermediate at the B1 Threshold and B2 Vantage levels, *Life* Upper Intermediate at the B2 Vantage level, and *Life* Advanced at the C1 Effective Operational Proficiency level.

## How does Life match the aims of the CEFR?

*Life*'s grammar and vocabulary syllabus encourages the linguistic competences needed for students to be able to communicate successfully. In particular, the *Grammar* and *Word focus* sections provide information and practice necessary for students to build their understanding and use.

The emphasis on the four skills of reading, writing, speaking and listening in *Life* reflects the same emphasis in the CEFR.

The *Critical thinking* sections develop students' reading skills. The *Real Life* section in each unit of *Life* introduces and practises key functional areas of language which mirror those in the CEFR.

The video section in each unit of *Life* develops students' ability to follow real spoken interaction and production in English. It also encourages students to use English in realistic roleplay scenarios.

The *I can* sections in each unit set clear objectives and checks that these objectives have been achieved.

The Workbook and teacher's resources give students extra practice and learning resources. The Workbook aims to develop learner autonomy.

## 2018 updates to CEFR descriptors

The descriptors contained in this document have been updated to match the revisions to the wording in the COMMON EUROPEAN FRAMEWORK OF REFERENCE FOR LANGUAGES: LEARNING, TEACHING, ASSESSMENT,

COMPANION VOLUME WITH NEW DESCRIPTORS from 2018.

*Life* has been mapped against this updated version of the CEFR, covering a broad range of key descriptors such as all the listening and reading skills, written and spoken production, as well as many essential descriptors such as using cues and inferring and spoken fluency. Note however that the updated descriptors in the 2018 document also include a number of newer sections such as mediation, online interaction and reactions to literature which have not been covered in our mapping.
