

# ONLINE PRACTICE

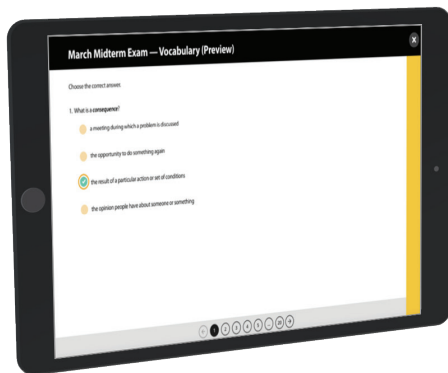

## DELIVER TESTS AND QUIZZES ONLINE WITH THE NEW ASSESSMENT SUITE

With the new Assessment Suite on Online Practice, teachers can create and deliver tests and quizzes, aligned to the language, skills and standards covered in their program. Student performance is tracked in the Course Gradebook, giving teachers a single view into learner progress and engagement.

## CHOOSE FROM PRE-MADE TESTS AND QUIZZES, OR CREATE YOUR OWN

National Geographic Learning programs with Assessment Suite include pre-made tests and quizzes, or teachers can create unique tests and quizzes from provided question banks, for greater customization.

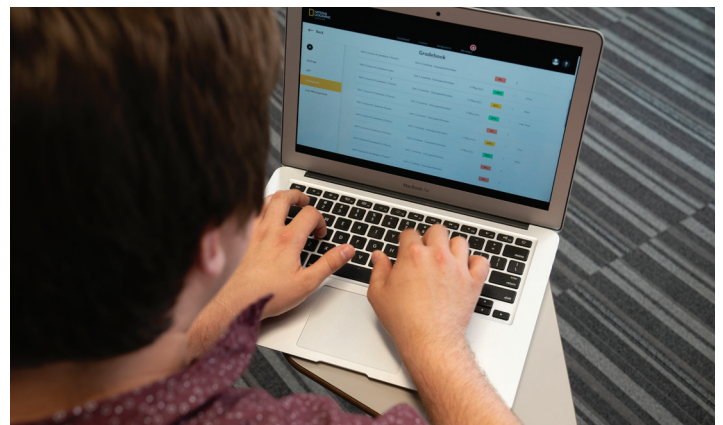

## DELIVER TESTS AND QUIZZES ONLINE THROUGH THE ONLINE PRACTICE PLATFORM

Customize your online assessment based on your class needs. Set the test date and time, the number of attempts allowed, and how and when students can see the correct answers.

## TRACK STUDENT PROGRESS IN THE COURSE GRADEBOOK

Test and quizzes are automatically graded and tracked in the Course Gradebook, along with other student work completed in the platform. This gives you full visibility into student progress and engagement as they move through your course.

Contact your local National Geographic Learning representative to learn more.
