Listen and repeat. TR: A18

How did people spend time long ago? Their life was different from ours.

Then

How did a typical day begin? It began when the sun came up! There were no electric lights, so people did all their chores during the day. Mothers taught their daughters to cook, make soap, wash the dishes, and sew clothes. Fathers taught their sons to make useful things for the house, garden, or market in town. Some children moved away from home to learn a craft or trade by working as apprentices.

Now

At night, families used candles or sat by the fire. They didn’t have cell phones, TV, or video games. They liked to play cards, play guessing games, or tell stories until it was time for bed.

Work with a partner. What did you learn? Ask and answer.

Why did people get up with the sun?

They wanted to do their chores in the daytime. They didn’t have electric lights.

Things were different long ago, different in so many ways.
Things were different long ago, different from today.

Long ago, children walked to school,
but today I ride my bike.
Long ago, we learned to sew our own clothes,
but now we buy the clothes we like.

CHORUS

We used to read by candles at night.
But now we read by electric light.
We used to talk only face-to-face.
Now we use a cell phone to call a different place.

CHORUS

People spent time with friends by the fire.
Instead, now we play video games.
But a friend is still a friend until the end.
Some things will never change!

CHORUS

Work with a partner. Ask and answer.

From Walking to Biking

The bicycle is not the idea of just one person. Over time, many people contributed to its development.

The first bicycle was made of wood. It had two wheels but no pedals. You didn’t ride it—you walked it! It was called a “hobby horse” or “walking machine.”

The velocipede came next. Velocipedes had pedals. Pedals were a good idea. With pedals, people could ride instead of walk or push their velocipedes. But velocipedes were hard to ride on cobblestone streets, and so they were called “boneshakers.”

Later, people rode a new kind of bicycle called a “high wheeler.” It was made of metal and had a high front wheel and solid rubber tires. It was more comfortable than a boneshaker, but people could fall off easily. Women didn’t ride high wheelers because women at the time wore long skirts. They rode a machine with three wheels, called a tricycle.

The next bicycle went back to two wheels of the same size. It had metal parts and pneumatic tires, and was called the “safety bicycle.” This design became the standard for modern bicycles. Then companies began to make bicycles for children. Now everyone enjoys bicycles!

Complete the sentences.

1. The hobby horse had two wheels but _____________ pedals.
2. Velocipedes were _____________ to ride on cobblestones.
3. High wheelers had _____________ parts and rubber tires.
4. Safety bikes had two wheels of the _____________ size.

Complete the timeline. Read the text again. Put the bicycles in order to complete the timeline.

Work with a partner. Talk about bicycles. Ask and answer.

1. Are bicycles now just for children, or for adults, too?
2. Do you have a bicycle? When and how do you use it?
3. Why are bicycles a good idea?

I ride my bike to school every day.

The longest bike ever made was about 36 m (117 ft.) long!
Paragraph Unity
In a paragraph, the topic sentence tells the main idea. The other sentences that make up the body give facts and examples about the main idea. A paragraph has unity when all the sentences refer to the main idea.

17 Read. This paragraph has five sentences that do not belong. Two are crossed out. Find the other three and cross them out.

School in the Old Days
Long ago, school was different from the way it is now. Many towns had one-room schoolhouses, and all students went to the same one room. There was just one teacher, who taught all students of different ages. All the students in my class are nine or ten years old. Students sat on hard wooden benches in rows. My class has comfortable desks, one for each student. They copied the alphabet, numbers, and poems onto slates with chalk. They also practiced their handwriting every day. They used quill pens and ink to write neatly. I use a computer to write. They copied texts and memorized long paragraphs from the one or two books the teacher had. I don’t like to memorize things from books. When students didn’t do their work, the teacher used branches from trees to punish them. My teacher is kind, so she doesn’t use branches. Some teachers made bad students stand in a corner and wear a pointed hat called a dunce cap. Students felt ashamed, and they looked silly, too. School is very different now.

18 Write. Write about life long ago. What did children do after school? What kinds of work did they do? What were their houses like? What clothes did children wear? Choose a topic. Make sure your paragraph has unity.

19 Work in a group. Share your writing. Listen and take notes.
Make a poster about life in the past and life now.

1. Choose a topic such as clothing, toys, sports, food, houses, or games.
2. Research information about your topic in the past and now.
3. Compare and contrast details related to your topic.
4. Cut out or draw pictures to support your writing.
5. Create a poster with your pictures and information.

Now I can . . .

- describe what people did in the past.
- talk about what the past was like.
- compare the past and the present.
- write a unified paragraph.

Kites are my favorite toy. But they weren’t always toys!
