

### Welcome to the National Geographic Online Placement Test

This test will help place you in the right course so that you can make the most progress in your English.  
*Important: Please read before taking the test.*

## YOU WILL NEED

- A computer
- Strong internet connection
- A headset with a microphone

Log in to [learn.eltngl.com](https://learn.eltngl.com) to access the test. Your teacher will give you your username or a direct link to your test.

## WHAT TO EXPECT

- The test takes 30 to 50 minutes. Each section is timed.
- There are 4 sections:
  - Sections 1-3 are each 15 minutes.
  - Section 4 is 5 minutes.

If you run out of time on a section, that section will be automatically submitted.

## TEST-TAKING TIPS

- Answer the questions on your own, without help. This will help place you in the right course.
- Work at your own speed, but don't spend too long on any one question. If you do not know an answer, make a guess.
- Answer all questions.

### NOTE

- A pop-up will alert you if you lose internet connection. You will not be able to answer questions while offline, and the timer will pause until you are back online.
- If you see a recording error pop-up message during the speaking section, try again. This means there is a problem with the recording (i.e., the microphone is not connected).
- If you exit the test, your work will be saved, but it will not be submitted. You can start the test again from where you left off.

At the end of each section, click  to submit your answers.
